TapCard

5 offers a café can send to customers' phones this week

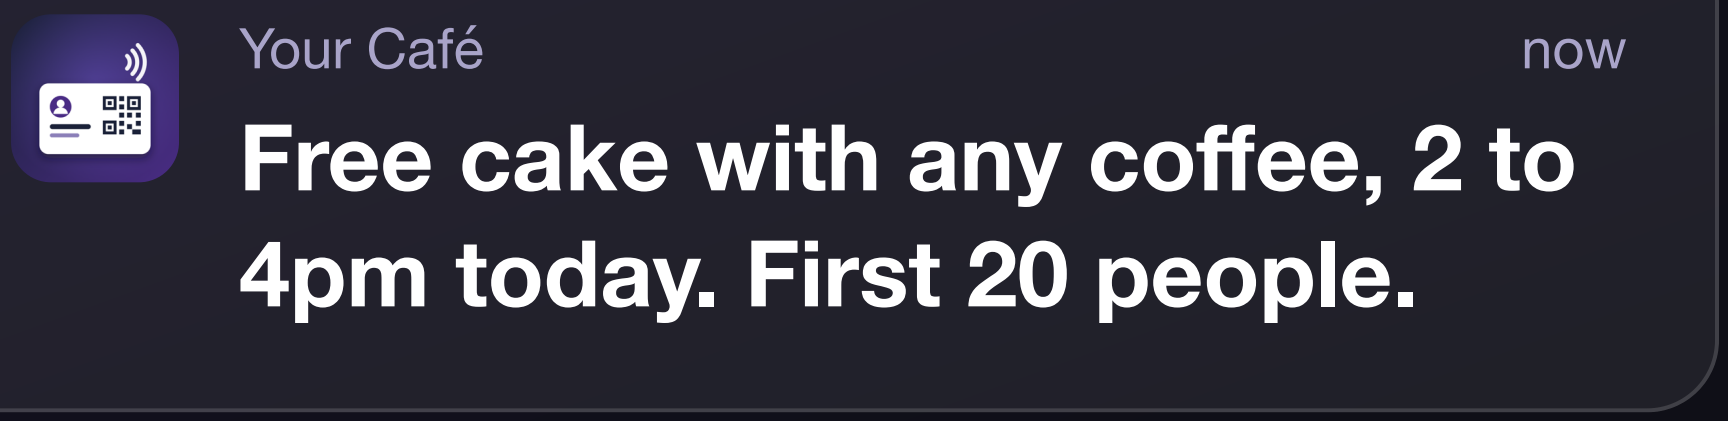

Ideas you can copy today. Each takes under a minute to send.

1

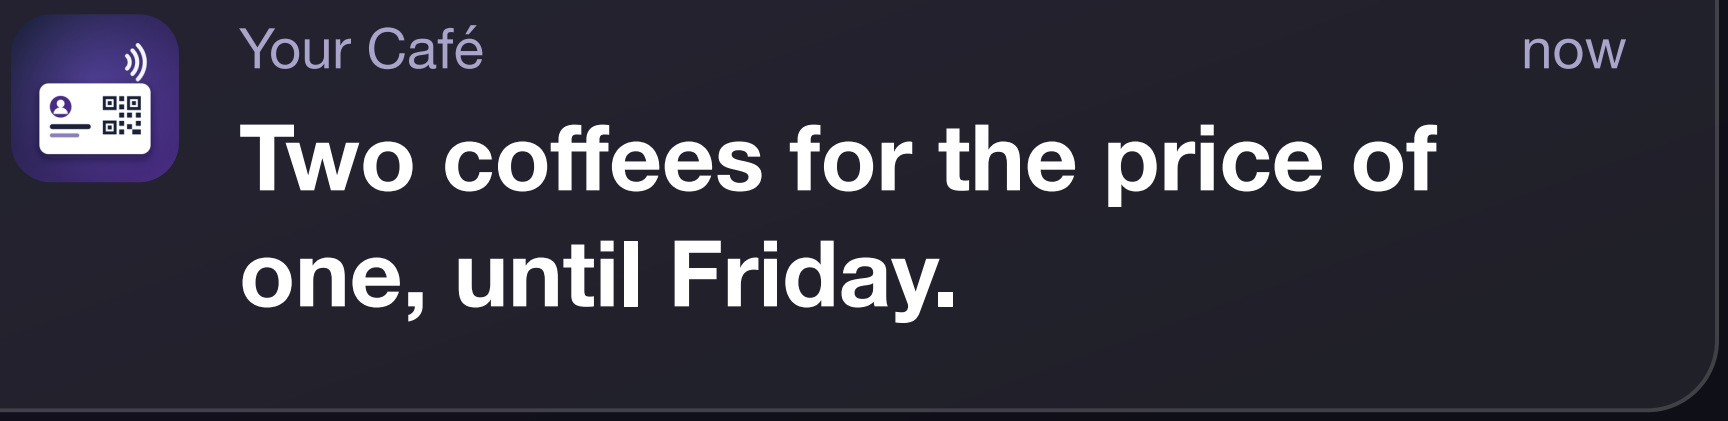

Fill the quiet hour

Why it works: a limit and a deadline make it feel special, and you control the cost.

2

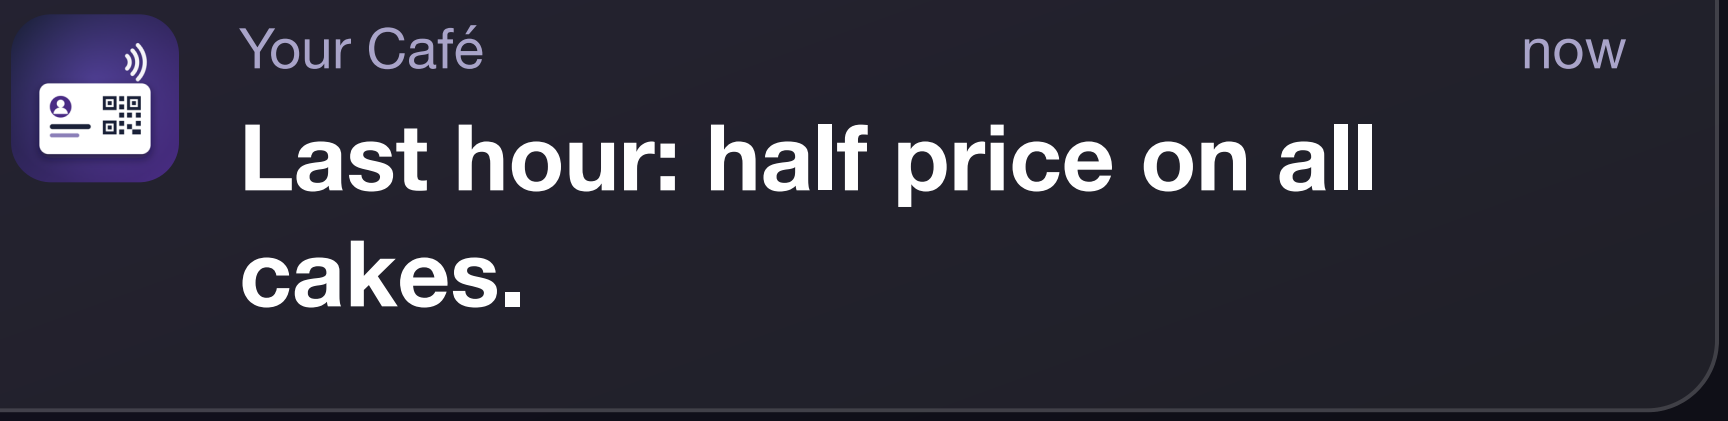

Bring a friend

Why it works: every person claims their own one-off code, so a friend can use it too.

3

Sell what's left

Why it works: send it mid-afternoon. Less waste, and people are already out.

4

Launch something new

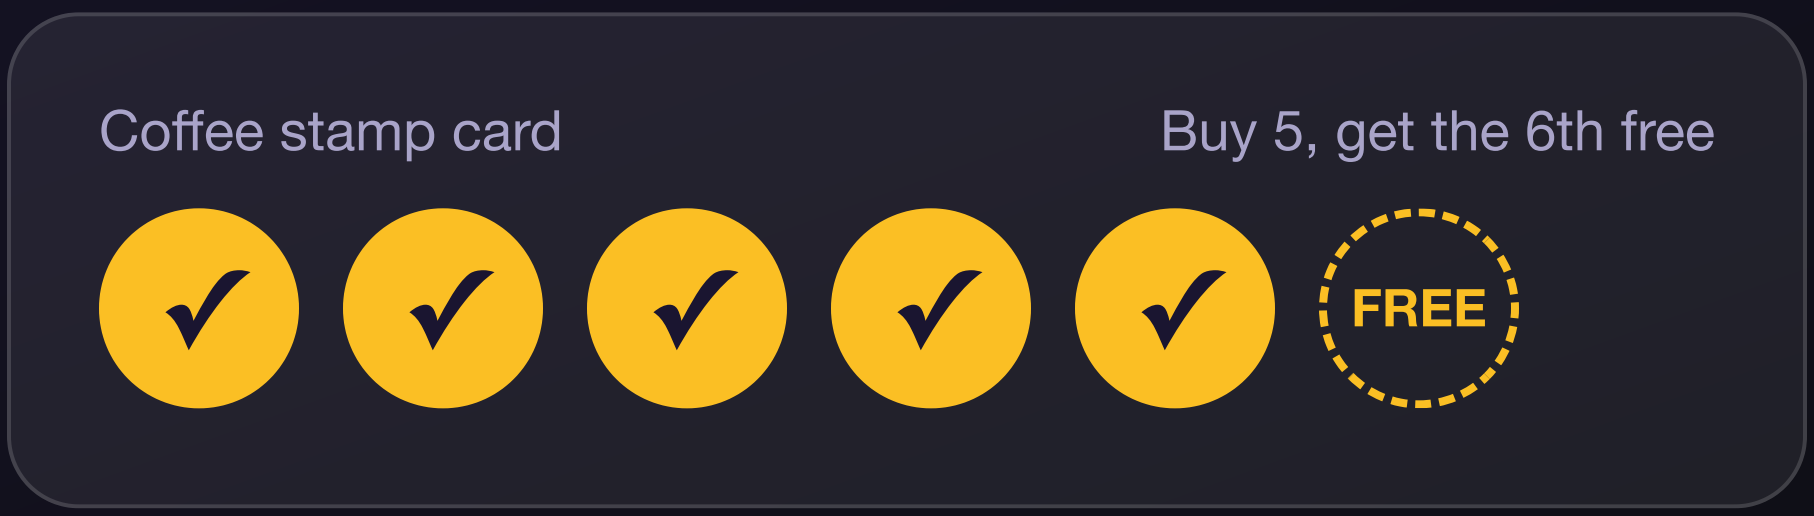

Your Café now

New autumn menu: free side with any main this weekend.

Why it works: post a short news line the day before, 140 characters is plenty, then send the offer.

5

Reward the regulars

Why it works: customers keep the card on their phone. Your staff add a stamp with a scan and a PIN. No paper card to lose.

TapCard

Send yours in under a minute

1. Customers scan your QR code and follow your card
2. You write the offer on your phone
3. They claim a one-off code and your staff scan it with a PIN
